

**THE FIRST TECHNOLOGY EMPLOYEE BENEFIT OFFERING**  
**KAELO GAP COVER**

As part of our broad employee benefit offering, we are pleased to inform you that we have negotiated a comprehensive Kaelo Gap Cover benefit, offering you and your families the best care and best coverage when you need it most. With rising medical costs, medical shortfalls are becoming a reality that are most often unexpected and difficult to pay for.

**We have negotiated the following on your behalf:**

- Preferential rates @ a cost of R477pm combined for you and your family (Spouse and/or children).

**Please take note:**

- The premium will be collected via debit order directly from your bank account and not through Payroll.
- The reduced rate will no longer apply if you cease to be employed at the Company. You may cancel the cover or continue on the standard rate. This should be discussed directly with the Kaelo consultant.
- An employee can be a spouse-dependant on the medical aid and still be the main member of the Gap cover on the reduced rate.
- This benefit applies to all employees that are on a registered medical aid scheme i.e. Discovery, Medihelp, Bonitas etc.
- Alexander Forbes will be the Intermediary on this benefit.
