Shariah Compliant Arrangement available on all health plans.

* Income verification will be conducted for the lower income bands. Income is considered as: The higher of the main member or registered spouse or partner's earnings, commission and rewards from employment; interest from investments; income from leasing of assets or property; distributions received from a trust, pension and/or provident fund; receipt of any financial assistance received from any statutory social assistance programme.

** We count a maximum of three children when we work out the monthly contribution and annual Medical Savings Account, except when a child has been placed in the custody of a member, such as foster care, in which case every child on the membership will be counted.

PMB	Prescribed Minimum Benefits (PMB)	All Discovery Health Medical Scheme (DHMS) plans cover the costs related to the diagnosis, treatment and care of: an emergency medical condition, a defined list of 271 diagnoses and a defined list of 27 chronic conditions. Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions. The treatment requested must match the treatments in the defined benefits. You must use designated service providers (DSPs) in our network – this does not apply in emergencies. Where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network once your condition has stabilised. If your treatment doesn't meet the above criteria, we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment.
